RISK MANAGEMENT

Risk management is integral to Agthia's strategy and to the achievement of our long-term goals. The Board has established a risk and control structure designed to manage the achievement of strategic business objectives. In doing so, we take an embedded approach that places risk management at the core of the leadership team agenda, which is where we believe it should be.

The Board provides oversight of the Group's risk management strategy and has the overall responsibility for setting the Group's risk appetite. Risk appetite guides the Group in determining the nature and extent of risk it would ordinarily accept, while executing the business model for creating sustainable shareholder value.

The Group accepts and applies a moderate risk appetite as it seeks a balanced management of opportunities for sustained business growth along with focused identification and exploitation of opportunities generated through its business. It is not the Group's strategy to seek accelerated growth by embracing choices with significant uncertainties.

The Audit Committee oversees compliance with risk management processes and the adequacy of risk management activities related to the Group's operations.

In addition, the Risk Management Committee, reviews the risk appetite and overall risk strategy, and makes recommendations to the Board through the Audit Committee and actions required to ensure adequate controls/mitigating actions are in place against key identified risks.

The Group applies a structured and robust Enterprise Risk Management approach whereby the risk management process is implemented in defined steps- Identify, Assess, Prioritize, Mitigate, Monitor and Report.

The Group has established a Risk and Governance Function separate from line management that enables and facilitate the risk management process across the Group. Riya Mathew is the Risk and Governance Manager for the Group and has the following qualifications:

Qualifications:

Member, Institute of Internal Auditors (IIA)
Certification in Risk Management Assurance (CRMA)
Master of Business Administration
Bachelor of Technology

**INTERNAL CONTROL**

The Group's system of internal control aims to ensure that the Board and management are able to fulfil the Group's business objectives. An effective internal control framework contributes to safeguarding the shareholders' investment and the Group's assets.

The objective of the Group's internal control framework is to ensure that internal controls are established; that policies and procedures are properly documented, maintained, and adhered to, and are incorporated by the Group within its normal management and governance processes.

In accordance with the requirements set out in Abu Dhabi Accountability Authority (ADAA) Resolution No (1) of 2017. Management performs an ongoing process of identifying, evaluating, and managing the risks faced by the Group and establishes and maintains effective controls for the risks identified including those over financial reporting.

The Group carries out the review of its internal controls over financial reporting on an annual basis with respect to all material financial balances whereby the Management assesses the adequacy of design and operating effectiveness of such internal controls over financial reporting. This management assessment is reviewed by the Group's independent auditors.

Management has adopted the Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), 2013 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements.

Management has assessed the adequacy of design and the operating effectiveness of the Company's internal controls over financial reporting as of 31 December 2020. Based on the assessment, Management has concluded that the internal controls over financial reporting are adequately designed and operating effectively with no material weaknesses been identified.

The Group's operating policies and procedures are considered to be adequate and effective, while recognizing that such a system is designed to mitigate rather than eliminate the risk of failure to achieve business objectives, and can provide reasonable but not absolute assurance against material misstatement or loss. The Board of Directors acknowledges its responsibility for the Group's internal control framework. The Board has delegated

responsibility for oversight of the Internal Control Department (ICD) to the Audit Committee. The Head of Internal Control and Compliance is appointed by the Audit Committee. The Audit Committee reviews the effectiveness of ICD function.

The objective of the ICD function is to provide independent assurance and consulting services using a disciplined systematic approach to improve the effectiveness of risk management, internal control, compliance and governance process, and the integrity of the Group's operations. The function is also responsible for monitoring the compliance of the Group and its employees with the law, regulations, and resolutions, as well as internal policies and procedures. A Charter sets out the purpose, authority, and responsibility of the function.

24 reports prepared by ICD are submitted to the Audit Committee and copied to the senior management of the Group for action. The overall internal controls environment remains robust across the Group. During the course of the year there were certain process level internal control enhancements which were identified and accepted for implementation towards continuous improvement of internal controls across the Group. On an ongoing basis, the Audit Committee monitors the progress that management has made with respect to remedial actions taken on issues and findings raised by ICD.

On 14 May 2017, Amarjit Singh was appointed as the Head of Internal Control and Compliance. He is also the Compliance Officer for SCA Resolution 3 of 2020 and has the following qualifications:

NEW PROJECTS UNDERTAKEN OR UNDER-DEVELOPMENT IN 2020**ACQUISITION OF AL FOAH COMPANY IN UAE**

Agthia Group on 6th Jan 2021 announced the successful completion of its strategic combination with Al Foah, a date processing and packaging company based in Abu Dhabi. With the integration of Al Foah into Agthia as a strategic business unit, Agthia has instantly become the domestic market leader in four essential food and beverage categories: water, dates, flour, and animal feed, in addition to having a diversified international exposure within the date category. The transaction — which was first proposed by General Holding Corporation (Senaat) to the Agthia Board of Directors in October 2020 and received approval from Agthia's shareholders in November 2020 — saw Senaat transfer Al Foah's business, excluding its organic date farm in Al Ain, to Agthia in exchange for 120 million new shares through the issuance of a convertible instrument. As a result, Senaat — which is part of ADQ — now owns 59.17 per cent of the entire issued share capital of Agthia, up from the 51 per cent it owned before the deal.

ACQUISITION OF INDUSTRIAL BAKERY IN KUWAIT

Agthia Group completed its 100% share capital acquisition of Al Faysal Bakery and Sweets, one of Kuwait's leading industrial bakeries. Al Faysal Bakery and Sweets is a household name in Kuwait, which has been in the market since 1991 with a diverse portfolio of premium products available at all retail food outlets. The company produces fatayers, croissants, mini pizzas, and new product categories such as cupcakes, puff, and rusks. Completing the deal strengthens the Agthia Group's regional footprint and expands its portfolio within consumer products. The acquisition quadruples the Group's business in Kuwait, which includes the joint venture Al Rammah National for General Trading and Contracting Company WLL that produces Al Ain Water.

ACQUISITION OF NABIL FOODS IN JORDAN

Agthia Group is in the process of acquiring a majority stake in Nabil Foods, regional producers of frozen and chilled processed protein products distributed in more than 20 local and international markets. Nabil Foods has a processing capacity of 43,000 tons per year and a range of over 600 individual product lines. The transaction is subject to obtaining certain regulatory and shareholders' approvals and executing transaction documents. The acquisition would represent

Agthia's first entry into processed protein through a well-established brand with a successful track record of over 75 years, placing Agthia at the forefront of a fast-growing industry. Through Nabil Foods, Agthia would have immediate access to new revenue streams as well as the opportunity to expand its product offering into the regional frozen and chilled processed meat sector.
